Pam just finished 43 years as a public school educator. She started that career as a classroom teacher and ended it as a 13-year veteran of the superintendency. She's reinventing herself in leading the nonprofit Virginia School Consortium for Learning as its executive director and she says she feels like a first year teacher again. She's been a president of WELV and VASS and now serves on the Maker Ed Board, National Commission for Social, Emotional and Academic Development, and the Education Advisory Committee of the American Institute of Architects. She often says that we are fortunate to work in the most important profession on the planet.
